## The Kayospruce Vinyl Collection

### Vinyl Headlining Buttons

When planning your headlining project, don't forget the complementary range of fixing products including Glues and Securing Buttons:

			BUT002 Old Navy	BUT039 Slate Black
			BUT003 Champagne	BUT041 Tide Pool Green
			BUT008 Mystic White	BUT046 Latte
			BUT009 Oatmeal	BUT048 Ivory
			BUT032 Grey Light	BUT049 Sand Surf
			BUT036 Off White	

Other colours available. Minimum order may apply.

### Nautolex Vinyl

A premium upholstery fabric designed as a hard wearing seating vinyl suitable for both internal and external applications. Designed with a unique PreFixx finish, Nautolex is easy to clean, antibacterial and mildew resistant, which provides a versatile product you can be confident in using.

### Nautolex Underlining

A material designed especially for the bottom of cushions. Manufactured from a woven polyester with a PVC coating. Nautolex Underlining is designed to provide breathability to the cushion by allowing moisture to escape. The underlining is mould and mildew resistant and is perfect to use when covering cushions in a non-perforated or breathable material.

### Headlining

Our premium vinyl is flame bonded to a 4.5 mm foam and scrim to make a perfect replacement or new finish to the inside of any vessel, from commercial boats to camper vans. Available in a selection of our more popular colours although any colour can be foam backed subject to a minimum quantity. Call to check for other colours available in this style.

### Harmony

Harmony is an exclusive collection, by Spradling, available only at Kayospruce. It's super abrasion resistant finish and mildew resistant face and backing enhances the durability and quality of the fabric. Offering bespoke colours, colour matches with Saulede's Acrylic Canvas, coordinating Centrefold Binding, and Serabond threads, Kayospruce certifies true colour match perfection for your prospective projects. Suitable for outdoor and marine applications.
